

Dolan School of Business Network Downtime

**Dolan School of Business Network Downtime, Sunday, February 15th,
7:00 AM to 11:00 AM**

Information Technology Services is requesting a downtime for the Dolan School of Business's network on Sunday, February 15th from 7:00 AM to 11:00 AM. Both wired and wireless network connections will be unavailable in the Dolan School of Business during the downtime. We recently completed work on the network core, and we can now upgrade the connection from the Dolan School of Business to our network core which will provide a better connection to the building. While individuals may not observe higher speeds on their devices, the upgraded connection will allow more individual devices to connect with better reliability.
